Resolve Problem with OpenConnect Server : Disconnecting after 4 minutes
OS : Ubuntu 22.04 64.bit
Requirement : Docker

_____

1) Aval bayad Containere ghabli ro stop va pak konim

Stop Container:
docker stop ocserv

Delete Container:
docker rm ocserv

Delete Image:
docker rmi ocserv

_____

2) Hala mitoonim project ro clone konim, tanzimat ro eslah konim va dobare run konim
Age bare avaletoone ke mikhain servere OpenConnect run konin (ghablan nadashtin), az
INJA shoroo konin ###

Clone the project from GitHub:
git pull https://github.com/iw4p/OpenConnect-Cisco-AnyConnect-VPN-Server-OneKey-ocserv

Rename the directory (Optional)
mv OpenConnect-Cisco-AnyConnect-VPN-Server-OneKey-ocserv ocserv

Go to project directory and edit ocserv.conf
cd ocserv
nano ocserv.conf
auth-timeout = 9999999
(Or you can just comment it out!)
CTRL + X >>> y >>> Enter

Build the new Image:
docker build -t ocserv .

Run the Container:
docker run --name ocserv --privileged -p 443:443 -p 443:443/udp -d ocserv

Best regards :)
